The Complete AutoLoading Software 2.0 System

**Saving Time.
Eliminating Errors.
Faster Routing updates.**

Orca Wave AutoLoading eliminates the challenge of manually processing carriers costs/codes by taking care of all telecom carrier cost sheet processing needs – error checking, acceptance/rejection and data normalization to carrier’s internal routing and cost management systems.

If you are a voice or messaging carrier or application services provider and wish to fully automate your supplier cost/code sheets – regardless of format, consider our transparent and hands-off service! Join the growing list of Orca Wave customers who are now able to redistribute their team’s time to other revenue-producing projects and eliminate manual errors.

Key Elements:

AutoLoading 2.0 fully integrates with the BlueWater platform offering seamless end to end automation of supplier cost upload activities.

Our Orca Wave’s AutoLoading and Analysis software delivers:

- Global and supplier-specific filtering rules, including ‘blocklisting’ of supplier routes
- Protection against weekend price increases

- Correction to any supplier data not complying with contract notification rules of increases/decreases
- Relevant data from the supplier cost/code sheet
- Mutually defined carrier information configuration
- Rapid integration into our customer’s Intelligent Routing Plans, with no limits on the number of Routing Partitions (plans) supported
- Cost Sheet Terms Enforcement
 - Configurable rules enforce contract terms and specific requirements necessary to your telecom business
- Email Based Submissions
 - Receive Cost Sheet submissions via email. Monitor and process cost sheets for approved accounts.
- Detailed Change Impact and Error Reporting
 - Full transparency available for each cost sheet processed. Detailed cost analysis, processing logs, and error outputs available.
- Support for Existing Cost Sheet Formats
 - AutoLoading processes cost sheets using the carrier’s own format.

The Complete AutoLoading Software 2.0 System

Saving Time. Eliminating Errors. Faster Routing updates.

Additional Highlights:

- SMS and Voice Supported
- Origination/Termination costs, connection fees, surcharges processed with ease
- Change histories and archives across carriers
- Ability to use existing email systems
- Detailed processing reports to Internal Staff/Carriers
- Integrates into existing voice call and messaging systems

About

Orca Wave is an experienced team of telecom professionals whom have worked together in the international and domestic telecom space since 1997. In 2002, Orca Wave was formed by John Rivenburgh and Jeri Wait. Orca Wave's BlueWater Software provides real time, intelligent solutions, architected to accelerate any world class carrier to global leader, as measured by quality, profit and revenue. To date the software platform has been the engine for some of the leading Global Carriers and Innovative new market entrants that are wholesale, wireless, application and VoIP providers.
